

Easy Installation

This guide provides the essential steps to install Cart2Quote with Composer. If you need support, look at our more [extensive manuals](#) or [request e-mail support](#).

Requirements

[Composer](#)

[ionCube Loader](#)

[Magento Open Source or Commerce](#) (2.1.x, 2.2.x, 2.3.x)

Cart2Quote installation

Connect to your store using a terminal and run the following commands from the Magento installation directory:

- ① `bin/magento deploy:mode:set developer`
- ② `composer require cart2quote/module-quotation-encoded`
- ③ `bin/magento setup:upgrade`
- ④ `bin/magento deploy:mode:set production` *(if applicable)*

Cart2Quote update

To update to the latest version run the following commands from the Magento installation directory:

- ① `bin/magento deploy:mode:set developer`
- ② `composer update cart2quote/module-quotation-encoded --with-dependencies`
- ③ `bin/magento setup:upgrade`
- ④ `bin/magento deploy:mode:set production` *(if applicable)*
